“Be a Banker a day programme”

In our continued effort to provide our students with a holistic learning environment students from AS-level Commerce took part in the “Be a Banker a day programme” on the 17th of February 2013. This is a daylong initiative undertaken by the Emirates Bank in order to demonstrate abstract theories as working practices & hence helped to provide detailed insight in to the working of the banking industry.

The programme enabled our students to get a real feel of the working environment within a bank which would be useful to them in making informed choices about their future. Our students thoroughly enjoyed the experience & this is how the day proceeded.....
