

Emirates Environmental Group Interschool Environmental Public Speaking Competition

Be the voice of a green generation!

The fourteenth Interschool Environmental Public Speaking Competition conducted by Emirates Environmental Group (EEG) was a bi-lingual event spread over a period of two days. EEG threw an open challenge to the student community across the country by inviting them to build a strong case on different contemporary issues relating to the environment. EEG inculcates the art of public speaking in budding orators and this served as a platform for the senior students in The Oxford School, to showcase their talent.

Oxfordians presented their ideas on the topic “**Green Economy Commitment and Responsibility**”. The confident & innovative presentation from the students helped the school to win the **2nd runners up position** wherein 36 International schools had participated. The winners were awarded with certificates by the EEG Chairperson Ms. Habiba Al Marashi. The Oxford School has always been a green school & how well the oxfordians were able to express themselves creatively is testimony to the awareness & commitment of oxfordians to the environment. This win helped to boost the morale of the students & teachers alike encouraging them to work harder to bring in many such laurels for the school.
