ABOUT THE FAIR

The Oxford ICT fair features numerous stalls and engaging activities to help enrich students' knowledge of technology along with eye-catching displays of modern sciences.

THE STALLS

ROBOTICS

The robotics club members will display their creative designs through this stall.

DIGITAL PHOTOBOOTH

Students can take photos with their friends in front of a green screen.

DIY ROBOTS

STEM students proudly display their made-from-scratch robots and highlight its key features.

TECHNO CASE STUDIES

find out more on cryptocurrency, Zuckerberg under attack, and much more in the various research stalls.

EASTER EGGS

Students get a chance to discover the lighter side of the internet- through intriguing easter eggs.

MICROBIT DEMOS

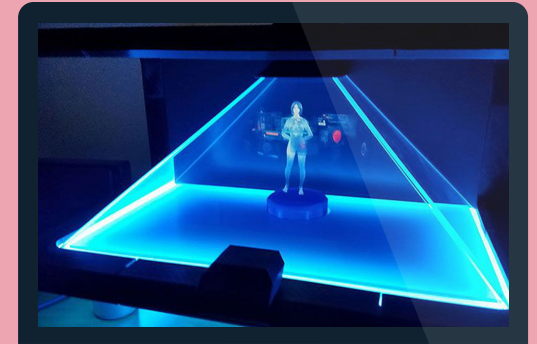

This stall will shine some light on the use and operation of microbits.

TECHNOLOGY MUSEUM

Teachers and students alike have brought in their antique gadgets to be displayed and compared with modern day technology.

DIGITAL ART

Meet talented artistically-inclined students showcasing their digitally painted artwork in this stall.

GAME STALLS

Dedicated video- game enthusiasts can play their favorite Xbox, PS4, and VR games in this stall

GUESS THE HARDWARE

Guess the hardware is a fun game where you can test your tech knowledge- while blindfolded!
